

Tobago Trip

August 21-29, 2010

Where in the world is Tobago?

Tobago is located about 20 miles northeast of Trinidad and about 70 miles off the northeast coast of Venezuela. The Caribbean Sea lies to the west and the North Atlantic to the east. Tobago and Trinidad are the most southerly of the Caribbean Islands. The island is hilly and of volcanic origin.

Summary of the Tobago Package

Package price \$1,095 per person based on double occupancy. The non-diver rate is \$620. The non-diver rate includes no diving and no tours. Tours may be paid on-site. The package includes, in general, lodging, breakfast and five, two tank boat dives (10 total dives). Additional boat dives are \$40.15 and may be paid on site.

The trip is nine days and eight nights; Saturday, August 21st to Sunday, August 29th. This schedule was selected so that no overnight stays would be required in transit.

Diving Tobago offers drift diving, wreck diving and pelagics.

Visibility ranges from 65 to 80 feet. In August, water temperature average 82-83 degrees F.

Diving is done out of small "six-pack" style boats. This insures diving in small groups and divers may select the dive sites they want to dive.

For additional information on diving Tobago please go to the following websites.
